Foundations of Materials Science and Engineering. by Smith, William and Javad Hashemi,. (). Foundations of Materials Science and Engineering Solution Manual. This Book is available in ebook format (.Q: Python, how to split a string that has space in it? Currently I am working on a code in python, that takes the path of a particular file and writes it into a txt file with this code: #! /usr/bin/env python path = "/Users/karenowen/Documents/coding_skills/OpenCV.ipynb" f = open("text.txt","w") f.write(open(path).read()) f.close() But what I need is to make the string in the path be split into an array so that I can write all of them into the text file, then save it. A: Splitting a string is not particularly easy in Python. Look at the answers to this question. The solution you seek, however, can be achieved using regular expressions. import re s = "/Users/karenowen/Documents/coding_skills/OpenCV.ipynb" a = re.split(r"[[:punct:]]+", s) print a you again. Thanks for the cover and the kick I really needed. Sure enough, by early September I found myself on the bookshelves of a small community near my home. I bought two copies and realized later that I also wrote copies on my hand to read, keep and add to as I grow. I've been back a few months now and am in the middle of reading through them again, or at least all the favorites. I still love this book, but as time passes, others in my mind start to crowd in. Here's a partial collection of my favorites: Sun in the Wilderness By
